

Special Weather Bulletin

Wed, Apr 15, 2026

Heavy Rain Watch Bulletin for Mauritius issued at 11h00 on Wednesday 15 April 2026, valid till 19h00 this evening.

The atmospheric conditions are unstable over our region.

Localised moderate showers with thunderstorms are expected this afternoon to the North-west, to the West and over the central plateau. These showers may be temporary heavy and spread to the other sectors.

A heavy rain watch is in force in Mauritius.

There may be water accumulations in flood prone areas.

Visibility will be reduced due to fog and in showers.

The public is advised to:

1. remain in safe places and avoid open areas, hikings, sea ventures and sheltering under trees during thundery showers.
2. avoid places prone to water accumulation.
3. be very cautious on the roads due to reduced visibility resulting from heavy rains and fog patches.

The situation is being closely monitored by the Mauritius Meteorological Services.
